### “MDDScore: Confirmation of a Blood Test to Aid in the Diagnosis of Major Depressive Disorder”

Dear Healthcare Providers,

We are very pleased to announce the publication of the above cited manuscript in the February issue of the Journal of Clinical Psychiatry now available online.

This article is a review of the latest prospective study confirming the utility of MDDScore as an aid to MDD diagnosis, and the results demonstrate a high sensitivity (94%), specificity (92%) and test accuracy (93%).

**Ridge Diagnostics has arranged for free online access to this article.** The steps to do so are simple. Go to the Journal home page (URL below) and click on the Table of Contents.

(<http://www.psychiatrist.com/jcp/Pages/home.aspx>)

You will see the article listed under “Online Exclusives.” Under the article title, click on “full text,” and you will be directed to the full online article.

Should you have any questions or need further information, please call 800.578.7818.

Best regards,
